SUMMARY

Adaptable, strategic thinker with vision and a passion for solving problems. Skilled at combining data, insight and context into the Big Picture and comfortable presenting results to senior management. An analytical, detail-oriented performer with over a decade of experience working with teams to identify opportunities and action solutions.

Diverse, well-developed skillset includes strong communication and presentation skills, familiarity with Lean Six Sigma project management tools and a strong commercial and technical background. Highly proficient in collaborative, multi-disciplinary environments at both the individual and leadership level.
